

5-9 July 2017
Athens, Greece

10th WORLD CONGRESS
on Water Resources and Environment
"Panta Rhei"

Dear colleagues,

**10th World Congress of EWRA
on Water Resources and Environment
"Panta Rhei"
Athens, 5-9 July 2017**

This is to inform you that the Organising and Scientific Committee of the 10th World Congress of EWRA, in its meeting on 31st October 2016 decided to extend the deadline for abstract submission to 21 November 2016.

The O&S Committee thanks the EWRA members and scientists and engineers from all over the world for their interest in the Congress. The final number of abstracts which are submitted is beyond any expectation. So far we received abstracts from 44 countries based on the affiliation of the first author. In one day we received 130 abstracts! We expect that the final number of submitted abstracts will be approaching 500.

There are two points the O&S Committee wishes to stress:

- a) If you know potential participants who wish to submit abstracts to the Congress, it would be wise to send them well before this new deadline. This will facilitate the evaluation of their abstracts reasonably quickly.
- b) The abstract submitted at this stage will be used for the initial selection of contributions for presentation in the Congress. The abstract which will be included in the Book of Abstracts (and will be available to the participants during the Congress) will be the abstracts of the full article.

I am convinced that we will organise a great Congress!

Please be in touch

George Tsakiris
